Following municipal elections across the province which saw a high degree of turnover in many of our member communities, Palliser Economic Partnership felt it was a good time to refresh our commitment to our members and help everyone understand where and how they can work with us to have a positive economic impact on their communities.

To do that, we have partnered with all of our region's economic development officers to offer Economic Developers of Alberta's highly-regarded Economic Development for Elected Officials seminars.

We are offering five seminars in total, one in each corner of Palliser Economic Partnership's region. Thanks to our partnerships with Harvest Sky Economic

Development Corporation, Brooks Region Economic Development, Invest Medicine Hat, Verge Economic Development, and Special Areas Economic Development, we are pleased to offer these courses to all of our region's elected officials free of charge.

Whether you are a new or returning elected official, this course is the '30,000 ft' view of the process of Economic Development. It will provide theory and fundamental applications of Economic Development along with examples of best practices. You will come away from it with a clear path on how you can have a positive impact on the economic development of your community, and how you can work with PEP and other economic development organizations to achieve economic growth.

Each location was chosen to limit drive time, so find the session closest to you and register soon. We are planning to host these sessions in person, implementing the Government of Alberta's Restrictions Exemption program.

Thank you all, we look forward to hosting you in the coming weeks. If you have any questions, please contact us using the button below.
