

OPPORTUNITIES IN METAL FABRICATION AND MACHINERY MANUFACTURING

Company Profile

Sector Overview

DaPaJo Construction Ltd., based in Brooks, Alberta, is one of nearly 2,000 companies operating in Alberta's metal manufacturing and machinery fabrication sector (MFMM). The MFMM sector is expected to create revenues of \$10 to \$12 billion annually in the future. The sector employs over 35,000 Albertans and provides 50% of all fabricated metal products and 75% of all machinery used domestically.

Alberta's Metal Fabrication and Machinery Manufacturing Sector...

- Offers world-class technology, machining, design and engineering capabilities;
- Plays a critical role in the development of the Oil Sands through the supply of fabricated structural products, modules, boilers, pressure vessels, tanks, heat exchangers and steel pipe and tubes;
- Performs field installation and maintenance of equipment.

About DaPaJo Construction Ltd.

DaPaJo Construction has been serving Southeast Alberta and surrounding areas for 35 years. The company was started in June of 1979 by brothers Dave and Pat Zukowski. The manufacturing and construction of oil rigs is the company's primary business, but they also feature a broad range of capabilities. DaPaJo has a fully equipped fabrication and machine shop with top-notch metal-forming, punching, and shearing capabilities using the strictest tolerances. Their 25,000 sq.ft. plant has seven overhead cranes, fully equipped MIG, TIG, Stick, and Flux Cored processes, and an experienced and professional welding department.

The plant's welding department is Canadian Welding Bureau (CWB) 47.1 certified and Alberta Boilers Safety Association (ABSA) certified for the past 10 years.

Key Industries Served

Oil and Gas, Heavy Industrial Manufacturing, Municipal Public Works, and Agricultural/
Food Processing Industries

Core Capabilities

- Custom Metal Shearing Welding & Installation
- Construction & Modification
- Registered Fittings
- Oilfield Maintenance
- Rig, Tank & Piping Expertise
- Inspection & Certification
- Custom Fabrication
- Field Service
- Plasma Cutting

DaPaJo operates in the City of Brooks, which is a member of the Palliser Economic Partnership (PEP), the economic development alliance for Southeast Alberta. Brooks is located in the southern region of the Eastern Alberta Trade Corridor, offering direct access to international markets.

PEP facilitates regional cooperation to position Southeast Alberta as an ideal location for business investment. They achieve this by assisting communities in regional projects and economic development activities that cannot be completed by communities on their own.

PEP's Core Focus Areas:

- *Marketing and Communications*

Make Southeast Alberta globally competitive by marketing the region on a larger scale and promoting initiatives to attract investment. It is also vital to promote the Palliser Economic Partnership as an effective regional alliance and the region as a healthy place to live and do business.

- *Regional Cooperation*

Grow and build communities through capacity building and collaboration, ensuring strong, vibrant communities throughout the region. We support balanced and sustainable growth in member communities, building alliances, partnerships and networks that enhance economic development participation inside and outside the region.

- *Business Investment*

Encourage sustainable economic growth by supporting business retention, economic diversity, investment attraction, industry innovation, and technology adoption and commercialization.
